INTEREST IN HEARING.

Discussion of Anti-Spitting Regulation Next Tuesday Morning.

A great deal of interest is being taken in the hearing to be given by the District Commissioners next Tuesday morning at 11 o'clock on the subject of the proposed antispitting regulation. Already the Commissioners are in receipt of several letters on the subject. A general invitation has been extended for the hearing, and the Commissioners are also anxious that they should have the views of the people in writing. It is their desire to call out as full an expression of public opinion as possible under he circumstances. The hearing itself must necessarily be limited to a degree, and so the Commissioners would like to have written expressions from those who cannot attend, but who are deeply interested in the

Dr. D. Percy Hickling, chairman of the committee on public health of the Wash-ington Board of Trade, who asked for the hearing, has requested the Commissioners to invite Dr. Walter Wyman of the public health and marine hospital service. He said he believed General Wyman to be in a position to give some very interesting information on the subject under consideration. On motion of Commissioner Macfarland, Gen-

eral Wyman will be invited. The Commissioners today received a letter from Marguerite du Pont Lee, urging that such a regulation be passed. She calls attention to several especially filthy side-walks, and says she has had her clothing soiled to the extent of total loss on two oc-

PROBING FOR FACTS.

Grand Jury Investigating the Lazier Gozman Murder.

The grand jury is investigating the circumstances attending the murder of Lazier Gozman, and more than ordinary interest is being shown. Gozman kept a grocery store at 619 Gordon avenue. His body was found in his store about 6 o'clock the night of December 30. His head had been so cut and battered that identification was almost impossible. After an investigation of the case the police arrested James Henson, a

young colored man. There was no direct proof against Henson, but circumstances were such as to warrant the jury in holding him. He has been in jail since the inquest was held. The investigation by the grand jury was begun last week, and the members of that body have taken a deep interest in the af-The witnesses have been closely ques-

At the suggestion of members of the jury, the police photographer, Policeman Johnson, visited the scene of the crime this morning and took a photograph of the rear yard and shed. The hatchet and cleaver the weapons used by the murderer; the blood-stained garments, and other articles used as evidence, have been exhibited to the grand jury. It is believed the investigation will not be concluded until next week.

Railway Company's Request Granted. The Commissioners have granted the request of the Anacostia and Potomac River Railroad Company for permission to re-move its tracks on Maryland avenue at the intersection of 7th street southwest and pave the space with Belgian block, and also to remove the tracks about the Peace monument and pave the space with asphalt.

A young colored man named William Holland fell and sustained a fracture of his left arm while working on a new build ing at 14th and R streets northwest this morning. He was removed to the Emergency Hospital in the hospital ambuiance. The injured man's home is at 2109 10th

A FAIR TEST. SEE IF COFFEE IS REALLY THE CAUSE OF

Some coffee drinkers think they can get on without being sick by limiting the allowance to just one cup a day, and some people can stand this

all right, but others cannot. There are many people where the poison of cofif followed up steadily, will surely and certainly put the patient in bed, or produce chronic, fixed lisease of one or more organs of the body. When a person suspects coffee to be the cause

of his or her stomach, liver, kidney, bowel, heart or eye disturbance, it is well to test the case by leaving off coffee for ten days and using Postum Food Coffee in its place. If there is an improvement in health the proof is absolute, and commot sense will naturally guide any one who values com fort, ease, content and ability to do things to make the change permanent and continue the use of worth the living when one can be well.

Now and then will be found a degenerate who

really prefers sickness of some sort to the comfort of good health, and such persons will continue to use articles of food and drink that they know do not agree with them.

In this land of liberty let every one choose his own course, but one great, staring, pertinent, ab-

solute fact stands out, that coffee does cause mis

ery and distress to thousands of people who do not suspect the cause, and the quitting of coffee and taking on Postum Food Coffee will return the average person to health and comfort. This fact

BAIN AND WARMER TONIGHT.

Saturday Clearing and Colder; Light, Variable Winds.

Forecast till 8 p. m. Saturday: For the District of Columbia, Delaware and Maryland, increasing cloudiness with rain and and warmer late tonight. Saturday clearing and colder; light variable winds, becoming fresh westerly.

For Virginia, fair tonight; warmer, except in central portion. Saturday rain, with colder in western portion; fresh southerly winds, becoming westerly.

Weather conditions and general forecast: The western cold wave has reached the middle Mississippi valley, where the temperature this morning is 20 to 30 degrees lower than it was Thursday morning. Lower temperatures also prevail over the entire slope region from Texas northward to the northern boundary. East of the Mississippi the temperature continues much above the seasonal average, the excess being as much as 30 degrees in some localities.

There have been numerous thunderstorms in the upper lake region, middle and lower Mississippi valley and eastern Texas. Fair weather prevails over the eastern third of the country, also west of the Mississippi river, the latter region being occupied by an area of high pressure, whose crest over-lies Nebraska and Kansas. A second high occupies the middle Atlantic coast districts, and a trough of low pressure extends from the lower Mississippi valley to the upper lake region.

The warm weather in the lower lake region and Ohio valley will be followed by much colder weather, with rain tonight and Saturday, and the rain will probably continue Saturday in Atlantic coast districts. There will also be rain or snow Saturday in the lower lake region. It will be much colder tonight in the Ohio valley, the lower

Mississippi valley and colder Saturday eastward to the coast districts.

The winds along the middle Atlantic coast will be mostly fresh southwest to south; on the south Atlantic coast fresh southeasterly, and on the east gulf coast, fresh east to southeast, becoming northwesterly.
Steamers departing today for European ports will have fresh southwesterly winds and fair weather to the Grand Banks. The following heavy precipitation (in inches) has been reported during the past

twenty-four hours: Jupiter, 1.44; Spring-field, Mo., 1.10; Taylor, 2.50; Palestine, 1.38; Milwaukee, 1.00. The river situation is practically unchanged. The Mississippi is about stationary at Memphis and continues to rise below. At New Orleans this morning the stage was 19.6 feet, 0.1 foot above the previous high water of 1897. The conditions from Memphis southward continue extremely critical. Further developments depend almost wholly mpon the ability of the levees to hold the

PROPERTY IS SUBJECT TO TAX. Assistant Corporation Counsel Renders

an Important Opinion. Arthur H. O'Connor, assistant corporation counsel, has rendered an opinion to the Commissioners on the subject of the liability to taxation of personal property found in the District upon which a non-resident owner may have paid taxes elsewhere.

"I find nothing in the law," says the counsel, "which would justify the exemption of such property from taxation here, and it is my opinion that such property is subject to the tax provided by the act of July 1

1902." The opinion was called forth by a com munication from Westcott & Story, 816 17th street northwest, who cited the case of A C. Tyler of 1634 I street, who came to Washington in December, 1902, bringing with him furniture from his home in New London, Conn., upon which he had paid taxes there and which he intended returning to that jurisdiction in May or June of this year. Mr. Tyler's assessment, includ-ing penalty of 20 per cent, amounts to \$4,800, on which there is a tax of 1½ per cent, or \$72. Mr. H. H. Darneille, the assessor, first reported on the case. After quoting a paragraph from the personal tax

law he said:
"It will be observed that this law is silent as to taxation of personal property which is temporarily located in the District of Columbia and is taxed elsewhere, but it is to be presumed that the law means what it plainly says, and as the words used are 'all tangible personal property,' the inference is that personal property temporarily located in the District of Columbia is included within the scope of the law, whether or not it is taxed elsewhere.

"Such double taxation of personal prop-erty has been, I am informed, sustained by the courts, and if this construction is not placed upon the law it would be extremely difficult to substantiate statements that such property was taxed elsewhere."
